Subject: Microsoft Ruling

Her Honor, Judge Colleen Kollar-Kotelly

I urge you to make a fair and just settlement regarding the Microsoft case. While Microsoft has created many good products and helped standardize the computer industry, they should not be allowed to perform business practices that hinder the free market trade of other companies. They should not be allowed advantages over other businesses that inhibit fair competition.

I am an accountant and have used Microsoft Products for many years, as well as others, but find it distasteful if they are allowed to do things that wipe out other entrepreneurs trying to create their niche in our market place.

thank you,

Steven M. Pfaff
